

Ian Taehwan Kim

1051 Riverside Drive, Suite 3534, New York, NY | (917) 455-2798 | tk2725@cumc.columbia.edu

EDUCATION

- 2014 – 2016 **M.A., Psychology**
New York University, New York, U.S.A.
Thesis: The neural substrates of specific and general aversive motivation
Readers: Vincent D. Campese, Ph.D., Justin M. Moscarello, Ph.D., and Joseph E. LeDoux, Ph.D.
- 2010 – 2014 **B.A., English Language and Literature**
Sogang University, Seoul, South Korea

RESEARCH EXPERIENCE

- 2016 - present **Research Coordinator and Administrative Assistant**
Division of Experimental Therapeutics, Department of Psychiatry, Columbia University Medical Center - New York State Psychiatric Institute (CUMC-NYSPI)
Principal Investigator: Daniel C. Javitt, M.D., Ph.D., Supervisor: Pejman Sehatpour, M.D., Ph.D.
- Current research coordination responsibilities
- Face emotion discrimination study: manage subject recruitment, consent procedures, schedule research visits, and collect data (EEG with eye-tracking) on schizophrenic patients and healthy controls
 - Biomarkers for Alzheimer's disease study: implement new EEG paradigms and preprocess data for this project that investigates an older cohort of amyloid positive participants and healthy controls (ages 55-80)
 - Clinical drug trial (AVL): collect and analyze EEG data investigating P50 using legacy and Matlab-converted tasks on low functioning schizophrenic patients for a clinical drug trial
- Administrative responsibilities
- Act as petty cash custodian for multiple projects, manage purchasing for the division, and reconcile monthly in collaboration with the finance office
 - Liaise with IT to maintain data server, workstation, task computers, and licenses
- In previous role as research technician (2016-2017)
- Ran over 110 EEGs for six projects, each consisting of various visual and auditory tasks investigating mismatch negativity in schizophrenic, prodromal (clinical high risk, ages 14-29), and healthy control populations
 - Collaborated with other research scientists to strengthen the quality of the data collection and trained other research assistants
 - Converted a legacy P50 auditory sensory gating task as well as an audiometer task to Matlab (Psychtoolbox) based tasks for the AVL project
 - Assisted in setting up, maintaining, and troubleshooting the local EEG data server, workstation, task computers, and Access database
 - Worked extensively with following systems and software: Brainvision, Neuroscan, Presentation (Neurobehavioral Systems), ANT-Neuro, SPSS, Matlab (eeglab, erplab, Psychtoolbox), Python
- 2015 - present **Research Assistant**
LeDoux Lab, Center for Neural Science, New York University (NYU)
Principal Investigator: Joseph E. LeDoux, Ph.D., Mentor: Vincent D. Campese, Ph.D.
- Currently processing data, writing papers, and managing follow-up experiments
 - Studied aversive motivation in rodents using the Pavlovian-to-instrumental transfer

- paradigm
- Ran behavior, stereotaxic surgery, pharmacogenetics, and immunohistochemistry
 - Mentored other research assistants, including a NYU Center for Neural Science summer undergraduate research program student

2015 - 2016

Research Assistant

Poeppel Lab, Department of Psychology, NYU

Principal Investigator: David Poeppel, Ph.D., Mentor: Adeen Flinker, Ph.D.

- Studied speech perception and hemispheric asymmetries in speech processing
- Ran behavioral psychophysics experiments and used Matlab for signal processing and data analysis
- Presented posters at the NYU M.A. research conference as well as the Society for the Neurobiology of Language conference

TEACHING EXPERIENCE

Spring 2017

Adjunct Instructor (Grader)

Introduction to Psychology, Department of Psychology, NYU

Professor: Amy Belfi, Ph.D.

Fall 2016

Adjunct Instructor (Grader)

Introduction to Psychology, Department of Psychology, NYU

Professor: Elizabeth A. Phelps, Ph.D.

Spring 2015

Teaching Assistant (Recitation Leader)

Introduction to Psychology, Department of Psychology, NYU

Professor: Elizabeth A. Phelps, Ph.D.

Fall 2013

Undergraduate Teaching Assistant

Departmental class assistant, Department of English, Sogang University

PUBLICATIONS

Manuscripts

Campese, V. D., **Kim, I. T.**, Rojas, G., & LeDoux, J. E. (2017). Pavlovian extinction and recovery effects in aversive Pavlovian to instrumental transfer. *Frontiers in Behavioral Neuroscience*. doi: 10.3389/fnbeh.2017.00179

Book Chapters

Kostek, N. T., **Kim, I. T.**, Kraut, R. A., Bilgrami, Z. R., Kim, J. J., & Corcoran, C. M. (*in press*). Attenuated Psychosis Syndrome. In A. Shrivastava and A. DeSouza (Eds.), *Schizophrenia Treatment Outcomes: An Evidence-Based Approach to Recovery*.

Conference Posters

Kim, I. T., Lee, M., Sehatpour, P., Corcoran, C. M., & Javitt, D. C. (2018). *Comparisons of mismatch negativity in clinical high risk and schizophrenia populations*. Submitted poster to Cognitive Neuroscience Society.

Sehatpour, P., Hoptman, M., Kreither, J., Adair, D., Rohrig, S., Gowatsky, J., **Kim, I. T.**, Martinez, A., & Javitt, D. C. (2017). *Modulating motor cortical network interactions using transcranial direct current stimulation*. Organization for Human Brain Mapping.

Kim, T. I., Mei, N., Poeppel, D., & Flinker, A. (2015). *A new acoustic space for hemispheric asymmetries investigated by dichotic listening*. Presented poster at Society for the Neurobiology of Language.

Campese, V. D., **Kim, T. I.**, & LeDoux, J. E. (2015). *Prefrontal regulation of Locus Coeruleus flips the switch between reaction and action*. Pavlovian Society.

Kim, T. I., Poeppel, D., & Flinker, A. (2015). *Investigating the spectrotemporal modulations of speech.*
Presented poster at NYU M.A. Research Conference.

AWARDS AND HONORS

- | | |
|------|--|
| 2016 | NYU Threesis Semi-finalist |
| 2015 | NYU M.A. Travel Award (\$500) |
| 2015 | NYU Graduate School of Arts and Sciences Dean's Student Travel Grant (\$500) |
| 2015 | NYU M.A. Poster Conference, First Place |
| 2013 | Sogang University Outstanding Writing Award |

SERVICE, OUTREACH, AND NON-ACADEMIC WORK

- | | |
|-------------|---|
| 2015 | Orientation Panelist and Group Facilitator
<i>Graduate School of Arts and Science, New York University</i>
Representative for the M.A. Psychology program for incoming class of 2016 |
| 2015 | Trevor Brain Fair, Trevor Day School
Poeppel Lab, Neuroscience Outreach Group at NYU |
| 2011 - 2012 | Personnel Manager, Republic of Korea Army
Mandatory military service |
